A proper plumber never brings more than he needs

En rørleggerjobb kan være så mangt. En akut vannlekkasje, en vassanløsering eller kanskje et bløndebatteri som skal installeres. Hva slags type rør er det på det gamle toaletet? Er de fra åttitallet eller kanskje femtitallet? Dette er det ikke alltid lett å vite på forhånd, og fordi man aldri helt vet hva slags utfordringer som venter, må en rørleggerbil være full av løsninger. Vi tar aldri med oss mer enn nødvendig, men det hender at det er nødvendig med mer. Og med så mange deler og utstyrsvarianter å forholde seg til, er laglig kompetanse og erfaring en forutsetning for å ta de riktige valgene. Nettopp derfor bør du overlate jobben til oss fagfolk. Always New Perspectives. Building a small car is not hard to do. Building one with the safety and comfort of a large car most definitely is. That's why, in creating the smart, we questioned traditional automotive wisdom once again. The result is a car so full of new ideas, you'll find one in virtually every centimetre.
